

Water Cooled Perkins Diesel Generator Efficiency With Electric Starting System

Our Product Introduction

for more products please visit us on diesels-generators.com

Basic Information

- Place of Origin: China
- Brand Name: Minlong

Product Specification

- Net Weight: 4500kg
- Type: Diesel Generator
- Warranty: 1 Year
- Frequency: 50Hz
- Cooling System: Water Cooled
- Noise Level: 75dB(A)
- Dimension: 3000*1700*1900mm
- Voltage: 400V
- Highlight: **Water Cooled Perkins Diesel Generator, 400V Perkins Diesel Generator, 75dB diesel electric generator efficiency**

Product Description

Product Description:

Perkins Diesel Generator is a heavy-duty diesel generator that can provide reliable and safe power in all conditions. It features a robust design and a durable construction that can withstand the toughest conditions. With a voltage of 400V and a noise level of 75dB(A), it is suitable for all kinds of applications. The generator is water cooled, and its dimension is 3000*1700*1900 mm, which makes it perfect for a wide variety of applications. Perkins Diesel Generator is the ideal choice for heavy-duty diesel generator applications. It is reliable, durable and provides reliable power in any environment. It guarantees a maximum of efficiency and safety.

Features:

Product Name: **Perkins Diesel Generator**

Power: **1000kVA**

Starting System: **Electric**

Noise Level: **75dB(A)**

Warranty: **1 Year**

Voltage: **400V**

High Output Diesel Generator

Durable Diesel Generator Set

Heavy Duty Diesel Generator

Technical Parameters:

Attribute	Details
Advanced Diesel Electric Generator	Perkins Diesel Generator
High Output Diesel Generator	1000kVA
Voltage	400V
Warranty	1 Year
Controller	Deep Sea
Fuel Consumption	195L/h
Starting System	Electric
Net Weight	4500kg
Cooling System	Water Cooled
Dimension	3000*1700*1900mm
Frequency	50Hz

Applications:

Minlong Perkins Diesel Generator is a heavy-duty diesel electric generator which is widely used for industrial and commercial applications. This advanced diesel generator is made in China with a net weight of 4500kg. It has a fuel consumption of 195L/h and provides a power output of 1000kVA. In addition, it has an excellent noise level of 75dB(A). This reliable and efficient Perkins Diesel Generator is suitable for many applications, such as providing backup power for hospitals, factories, and schools, as well as powering events, concerts, and outdoor activities.

Customization:

Perkins Diesel Generator - Heavy Duty 1000kVA Generator

Brand Name: Minlong
Place of Origin: China
Noise Level: 75dB(A)
Starting System: Electric
Power: 1000kVA
Warranty: 1 Year
Net Weight: 4500kg

The Perkins Diesel Generator is a heavy duty 1000kVA generator designed to meet your needs. With a noise level of 75dB(A), electric start system and a 1 year warranty, you can be sure that your generator will be up and running when you need it. The generator is also lightweight, with a net weight of 4500kg.

Support and Services:

Perkins Diesel Generator offers a range of technical support and service options to help you get the most out of your purchase. Our team of experts is available to answer any questions you may have. We also provide training and guidance on proper use and maintenance of your equipment. In addition, we offer a variety of repair and replacement services if needed. We guarantee quality products and a reliable service experience.

Packing and Shipping:

Packaging and Shipping - Perkins Diesel Generator

Perkins diesel generators are shipped in wooden crates or on pallets, depending on the size of the unit. For smaller generators, the packaging is designed to protect from the elements during transit, with foam padding surrounding the unit. For larger generators, the unit is secured to a pallet and shrink-wrapped for additional protection. All units are shipped with the necessary documentation, including installation instructions.
